Sprint Review and Sprint Retrospective 1 - TEAM DRESSED-UP

- Features implemented
    - o Website's beginning display
    - o app name displayed

- Issues fixed
    - o Revised user stories
    - o added links to task flow diagrams 1 and 3

- Implementation review
    - o *What went well in the implementation*
        - ▪ successfully implemented setup display
        - ▪ able to successfully run on everyone's device

    - o *What problems occurred*
        - ▪ not completely understanding product backlog and sprint backlog
        - ▪ finding directories in everyone's machine
        - ▪ cloning repository

    - o *How problems were solved*
        - ▪ determination and teamwork
        - ▪ referring to past resources

- Changes made
    - o user story documents
    - o readme file
    - o added links to deliverable 0 task flow diagrams

- Plans for next sprint *(What will be done for the next sprint)*
    - o finalize deliverable 1
    - o make/assign all issues for deliverable 2
    - o work more with UI and back end

- Sprint Retrospective
  - *What went well?*
    - in person meeting
    - planning and assigning tasks
    - collaborating and discussing challenges

  - *What could be improved?*
    - getting tasks done earlier, in particular when multiple people need the task results
    - getting used to when meetings are
    - setting earlier person deadlines (do date vs due date)
    - work on mockup, getting an idea of final product

  - *What will we commit to improve in the next Sprint?*
    - *What changes will be made to how we work for the next sprint?*
      - *Fill in the table below*
      - *Then enter it into the project management / task tracking system*

Change	Who will be responsible for the change	Who will check in on the change half-way and when
time management	everyone	caitlin
in person meeting, once a week	everyone	caitlin
pre-sprint prep, take more notes	everyone	caitlin
